Hi Ravi,

I reviewed the report and have these comments:

1. It would be helpful if the maps could also include the previous data results
2. It is concerning that it took them so long to give you this report. The data was collected in Feb/March and it was not such a complicated report to put together.
3. The phthalates units in the text do not match the table (I did not check all of the chemicals)
4. I look forward to seeing the conceptual model and the data all tied together

As a note, the data certainly came out at higher concentrations than I expected.

Best,  
Heather

Given the LDW FS review that many of the East Waterway Stakeholders may be involved with, I am extending the comment period for the EW subsurface data report to Friday January 21, 2011 COB. Please have any comments to me on this report by then.

Thanks

Ravi

Ravi,  
Unfortunately I am going to have to request an extension as the LDW FS comments are due on the 14th and there is no way I will be getting to this until after that.

Subject: EW Draft Subsurface data report - Stakeholder review

Dear EW Stakeholders,

Below are instructions for access of the draft EW Subsurface Data Report and map folio. Please provide your comments by COB Friday January 15th, 2011. This data report presents the results of three rounds of subsurface sediment analysis, but does not include the latest round of analysis for subsurface dioxin testing. When these results are available they will be shared with the stakeholders.

Please let me know if you have any questions on this review or if you have trouble accessing the report.

regards,

Ravi

To gain access to this FTP folder, please use the following procedure:  
\* From your MS Windows Desktop, Select Start/Run  
\* Cut and Paste the following line in the "Open" field and then Select "OK": (Please note that the following line is not a URL or hotlink)

```
%systemroot%/explorer  
ftp://stakeholder%40eastwater:3asth2o@ftp.anchorqea.com/
```

You should now be logged into the FTP account; a window will be

generated for you to upload your file(s) into.  
(Copy & paste your files into or from the window).

To perform a "manual login" from a Microsoft Explorer window, select the link below:

<ftp://ftp.anchorqea.com> <<ftp://ftp.anchorqea.com/>>

This will launch a "Log on as" window.

Username: (b) (6) (this refers to the particular FTP user account @ the FTP project name)

Password: (b) (6)
